

Life. Live it. First aid education kit

National curriculum links - Key Stage 4

## Personal and Social Education

### Learning Outcomes

#### Developing thinking

Learners should be given opportunities to:

- use prior knowledge to explain links between cause and effect, and make predictions.
- take different perspectives into account when making informed decisions and choices effectively.

#### Developing communication

Learners should be given opportunities to:

- > listen perceptively in a range of situations, and respond appropriately
- > communicate personal feelings and views effectively in a wide range of situations through a range of appropriate methods
- > appreciate, reflect on and critically evaluate other points of view.

#### Active citizenship

Learners should be given opportunities to:

- > develop respect for themselves and others.

#### Health and emotional well-being

Learners should be given opportunities to:

- > accept personal responsibility for keeping the mind and body safe and healthy.
- > and to understand the short and longer term consequences when making decisions about personal health.

#### Moral and spiritual development

Learners should be given opportunities to understand:

- > the range of values and principles by which people live.

#### Working with others

Learners should be given opportunities to:

- > reflect on the roles played in group situations, including leadership

#### Improving own learning

Learners should be given opportunities to:

- > apply learning to unfamiliar or more abstract situations.

- > **develop the practical skills necessary for everyday life, e.g. administer basic first aid.**
